

### Drama in Pre-Prep

Pre-Prep 2 have been reading and learning about *Where the Wild Things Are* by Maurice Sendak. Alani has taken her remote learning to a whole new level and created this incredible

work of art. Rosie has designed and made this fantastic stage set for a *wild rumpus*.

Pre-Prep 3 have been designing and making theatres for their sock puppets. Here is

Oliver's

wonderful creation!

Pre-Prep 1 have been reading the story of the *Three Billy Goats Gruff*. Joseph wondered if the Troll had actually been badly maligned over the years so he created an alternative, caring Troll.

### Reflection, Rotation and Translation Art

Prep 4 have been looking at

translations, reflections

and rotations using four quadrant coordinates. They have then used these concepts to create Maths art work.

### Road Safety in English

Prep 1 have been learning about persuasive techniques and, whilst reading *The Hodgehog* by Dick King-Smith, they took the time to create some road safety signs!

### Design Technology

The children in Prep 3 have been designing and making cube robots. They have learned about net shapes and have explored materials working on their quality of finish through cutting and assemblage. They have used bold, eye-catching colours. The children have created individual designs for the heads, bodies and legs. Each of the cubes rotates allowing for a whole host of robot character possibilities. What fantastic work in DT this term Prep 3!

### Chinese New Year

Pre-Prep have been celebrating the start of the Year of the Ox with some wonderful pieces of art work.

### Working Together

In PSHE, Prep 3 have been thinking about ways in which the world would benefit if there was more cooperation between countries? The children came up with some great ideas. Here are some of Jasper's thoughts:

*We could end food poverty and to help everyone to eat healthily. Stop racism to make the world a kinder and better place. Reduce plastic waste to protect our animals around the world. Stop bullying and make everyone appreciate one another. Stop COVID and people dying from this illness and make sure everyone around the world has a vaccine to protect them. Stop people and their animals living out on the streets, and provide a safe shelter and food for them. Support and protection for families who may have lost relatives to illnesses. Support local shops that need business, rather than the larger shops.*
